Enemies of Last Lantern

Every enemy and boss in the game, in the order you meet them: 23 enemies and 5 bosses across 5 biomes. Data comes from `godot/data/` (mirrors of `js/data.js`); sprites are the first animation frame from `godot/assets/sprites/`, scaled ×6 without smoothing.

Stats are the base values at depth 1. Health and damage grow with depth and with Ardor; elites get extra health (see Elite champions). Speeds are in pixels per second, distances in pixels (a tile is 16 px).

Health	Damage	Speed	Radius	XP
46	12	36	7	6

Traits: —
Found in: The Crypts, The Sunken Foundry, The Heart of the Well
